Permission for Observations

*[Please check the boxes below where you grant permission.
Then sign, date and return to IEA. Thank you.]*

Throughout the course of the year at IEA we receive requests for observation for the following reasons:

- Family members to observe their children in the area of related services, including Speech & Language, Occupational, Physical Therapies, and Social Groups.

- Professional students in training, including student teachers and interns to observe related services including Occupational and Physical Therapies, Speech and Language Therapies, Counseling, Behavioral Consult sessions, and Social Groups.

Because many of these sessions occur with other students, it is necessary to obtain permission from the parents/guardians of those other children. Consequently, your signature below will allow observation of the area **that you have checked (v) above.**

Please be assured that confidential information pertaining to your child will not be shared by the observing individual(s).
